REXX History
In the beginning, there was

**REX**  \((\text{RE}f\text{ormed } \text{eXecutor})\)

which eventually became

**REXX**  \((\text{RE}\text{structured } \text{eXtended } \text{eXecutor})\)
REXX Firsts

1979 - Mike Cowlishaw (MFC) starts work on REX

1981 - First SHARE presentation on REX by Mike

1982 - First non-IBM location to get REX is SLAC

1983 - First REXX interpreter shipped by IBM for VM

1985 - First non-IBM implementation of REXX shipped

1985 - First REXX trade press book published

1987 - IBM Selects REXX as the SAA Procedures Language

1989 - First REXX compiler shipped by IBM for VM

1990 - SHARE REXX committee becomes a project

1990 - First SHARE presentation on Object Oriented REXX

1990 - First Annual REXX symposium held (organized by SLACs Cathie Dager)

1991 - First REXX ANSI committee meeting held

Question is:

How many programming languages has MFC designed?
Note that REXX is his latest!!!!
Jeopardy: REXX for $400

Answer is:

350

Question is:

What is the peak amount of REXX electronic mail MFC received per working day?
Answer is:

4000

Question is:

What is the approximate number of hours MFC spent on REXX before the first product shipped?
Answer is:

500,000

Question is:

What are the approximate number of REXX related electronic mail MFC has read since REXX started?
Jeopardy: REXX for $100

Answer is:

over 6,000,000

Question is:

What is the largest known total number of lines of REXX code used in any one company?

- ANSI committee started

- REXX Users start a yearly REXX Symposium in 1990

- SHARE elevated REXX to a Project

- Increasing number of books and articles on REXX

- Increasing number of REXX Implementations on different platforms by increasing number of companies
REXX is one of 15 languages to be worked on as an ANSI standardized language. Others are:

- APL
- APT
- BASIC
- C
- C++
- COBOL
- DATABASE
- DIBOL
- FORTH
- FORTRAN
- LISP
- PASCAL
- PL/I
- PROLOG

Note that the languages listed are at different levels of standardization.
REXX Symposium

- Annual event started in 1990
- Run by Users of REXX
- Attended by all vendors of REXX implementations and their users
- Includes presentations, demos, panel discussions, etc
- Initiated by Cathie Dager of SLAC in 1990
- 1990: 118 attendees for a single day
  1991: expanded to 2 days
  1993: planned for May 18-20, 1992 in San Diego, CA
- Purpose: "a gathering where REXX users and developers could meet each other, exchange ideas, and information about the language and discuss future plans."

Name of a REXX Entity

What is the name of a REXX entity?? Is it:

- Program
- Exec
- Macro
- Procedure
- Shell
- Script
Term definitions are:

**Program:** A sequence of instructions suitable for processing by a computer. Processing may include the use of an assembler, a compiler, an interpreter, or a translator to prepare the program for execution, as well as to execute it.

**Exec procedure:** In VM, a CMS function that allows users to create new commands by setting up frequently used sequences of CP commands, CMS commands, or both, together with conditional branching facilities, into special procedures to eliminate the repetitious rekeying of those command sequences.

**Macro instruction:** An instruction that when executed causes the execution of a predefined sequence of instructions in the same source language.

**Procedure:** A set of related control statements that cause one or more programs to be performed.
shell: A software interface between a user and the operating system of a computer. Shell programs interpret commands and user interactions on devices such as keyboards, pointing devices, and touch-sensitive screens and communicate them to the operating system.

script: In artificial intelligence, a data structure pertaining to a particular area of knowledge and consisting of slots which represent a set of events which can occur under a given situation.

Note: definitions come from the IBM "Dictionary of Computing".

The 1990 edition of the Cowlishaw book has a new cover which includes the following changes:

- King now matches the playing cards King of Spades meaning
  - King faces the opposite way
  - King holds the sword differently

King was chosen because REX is Latin for King!
